### **DETAILED ACTION**

This Office action is in response to the amendment filed April 17, 2007 in which claims 14-24 were added and a terminal disclaimer was filed.

#### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 13-24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

3. Claim 13 is rejected because the original filed specification does not provide support for the language "a heat-up of about 2 °C/minute up to a temperature of about 600 °C at a pressure ranging from about 25 psi to about 500psi... for a time period ranging from about 2 hours to about 6 hours."

4. Claim 18 is rejected because the specification does not provide for "a surface area up to about 25 m<sup>2</sup>/g."
